Where there's plaster, there's comfort.

algiss[®]

ALGISS®.

Your trusted brand

Quality, reliability and closeness are some of the attributes that Algiss® has always shown throughout its existence and that have made it a consolidated and recognised prestigious brand in the Iberian market.

For the more than 100 years that we have been in the market, under different names and brands, the quality of our products and the good service we offer to our clients have always been our highest priority. And with this philosophy, we have continued to grow and evolve to become what we are today: a leading company capable to supply everywhere in the Iberian Peninsula Spain & Portugal and with expertise and experience in exports to many countries from our four production facilities.

We are committed to R&D&I to find new solutions that will improve the wellbeing of everyone around us, from professional sales people to skilled installers, and the final users who trust on them.

For all these reasons, if you want reliability and professionalism in the production and sale of interior plaster solutions, Algiss® is your best choice!

Where to find us?

- 1 Valdemoro (V) (Madrid)
- 2 Mañeru (MÑ) (Navarra)
- 3 Beuda (B) (Girona)
- 4 Martos (M) (Jaén)

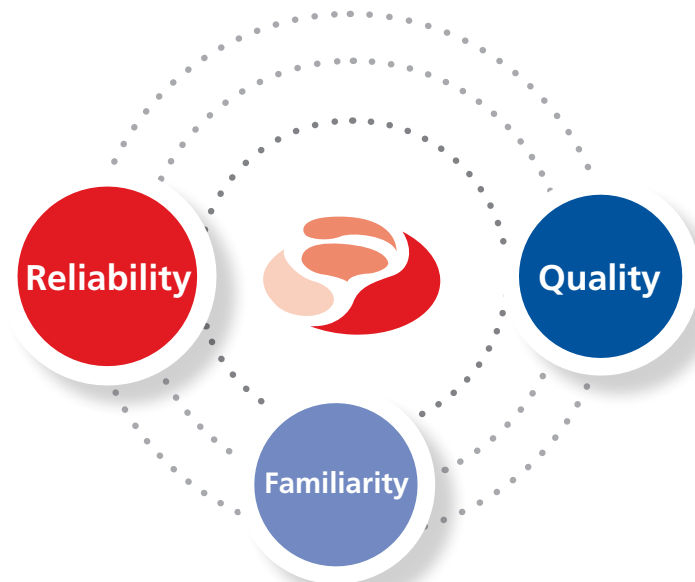

● Production centres.

Everything a professional like you need

1 An expert sales team, which will support you and provide advice in the warehouse or worksite.

2 Permanently in contact with you and your clients, to immediately respond to any query

3 A standard product, tested in exhaustive production and quality controls. Your satisfaction is our best reward.

4 4 production facilities so that you can access our products from any point in the peninsula and outside.

PLASTERS RANGE

QUALITY, GUARANTEE AND EFFICIENCY IN A SINGLE SOLUTION

Committed to you and to sustainability

We are fully committed to sustainable development, because we believe that our professional decisions can clearly contribute to the development of our environment:

COMFORT FOR YOU: Because we offer you thermally insulated products, which regulate environmental humidity, serve as acoustic absorbers and are fireproof.

SAFETY FOR THE ENVIRONMENT: Our products are based on plaster, a natural mineral that is abundant in nature. Furthermore, the only thing it emits into the atmosphere is water steam and any waste is biodegradable. ISO 14001 Environmentally Certified.
